Olivia Prince receives the Accredited Staging Professional Certification

(City, State): Olivia Prince is proud to announce that she has received the designation of Accredited Staging Professional.

Home Staging is a marketing technique proven to generate higher interest in homes for sale and to ensure that they sell for the highest possible price. By removing clutter from rooms and adding a few simple artistic elements, Home Stagers can turn homes into in-demand works of art. Accredited ASP Stagers and ASP Real Estate Agents are trained under strict guidelines that have been developed and honed for more than 30 years. As the true leaders in the Home Staging and Real Estate industries, Accredited Staging Professionals achieve great success in home sales and are highly sought-after by home sellers nationwide.

Olivia Prince is a Real Estate Broker and the co-owner of Wind River Realty. She's passionate about helping people find the home that's just right for them. Her extensive experience, hunger for knowledge and love of the business sets her apart from other realtors. She doesn't want to just get the job done; she wants to get it done well, meeting or exceeding her clients' expectations along the way. Most of all, she wants her clients to enjoy the home selling process as much as she does. For more information about Olivia and her services, please visit www.oliviaprince.com.
